Stimsons Introduction To Airborne Radar Electromagnetics ...

George W. Stimson was the author of Introduction to Airborne Radar (1st and 2nd editions) and served as an engineer on Southern California Edison's frequency-change project before being hired by Hughes Aircraft Company. Working closely with the company's top designers, Stimson observed first-hand the fascinating evolution of airborne radar and with the help from Hughes engineers updated the first edition with 11 new chapters.
